

PURPLE WRAATH

WHAT IT DOES

Discover the “Holy Grail” of bodybuilding and athletic performance enhancement: maximizing lean gains and fat loss while enhancing recovery and increasing strength, endurance, and energy. Purple Wraath was created to be the most complete EAA/BCAA product on the market; keeping your body in a constant anabolic state and keeping you training hard with its added super endurance complex.

- Fast absorption/fast acting.
- EAA & BCAA
- Caffeine-free ergogenic formula.
- Delicious tangy grape flavor.
- Natural anabolic environment.
- Increase athletic performance, endurance, focus, stamina, and muscle recovery.
- Legal, safe, and effective for both men and women.
- Stimulate metabolism to reduce body fat.
- Explosive strength, power, and energy.
- Increase or maintain muscle mass whether cutting or bulking.
- Dextrose/maltodextrin free.

WHAT IT DOES

The Most Advanced Creatine Matrix Volumizer Ever To Reach The Market! Green Bulge is the most advanced creatine matrix volumizer ever to reach the market. It combines Magnesium Creatine Chelate (MCC), a patented form of creatine, with Creatine Ethyl Ester (CEE) to deliver synergistic benefits. Magnesium Creatine Chelate has been shown in clinical trials to boost strength significantly after just 2 weeks.

This form of creatine draws water in greater abundance intra and extra cellularly. This increased cellular hydration leads to better protein synthesis and a fuller, more volumized look. Creatine Ethyl Ester is creatine monohydrate that has been attached to an ester. This ester allows for far better absorption by the body than can be accomplished with generic creatine monohydrate. Creatine monohydrate non-responders or those who felt bloated and had aches will achieve much better results with CEE and MCC.

These two forms of creatine work as described in over 99% of users, whereas creatine monohydrate could not be tolerated by a large percentage of users due to mild "side effects". Taurine Ethyl Ester (TEE) and Arginine Ethyl Ester (AEE) have been added to the formula for volumizing and nitric oxide enhancing effects. Creatine and nitric oxide go hand in hand when trying to increase strength, protein synthesis and pumps.

- Mass Gains
- Increased Strength
- Increased Pumps
- Greater Protein Synthesis
- Patented Creatine
- Ethyl Ester Technology
- Antioxidant & Insulin Regulator

NUTRITION

Serving Size: 5 Capsules

Servings Per Container: 30

Amount Per Serving:

HyperCre Complex 3450mg

Magnesium Creatine Chelate
