WHAT IT DOES

What is naNO Vapor?

naNO Vapor is the ultimate pre-workout weapon for the real iron warrior. A unique musclebuilding experience, naNO Vapor is scientifically formulated to immediately transform every single training session into an experience unlike anything before – the World's Most Anabolic Event. The powerful formula targets and ignites the body's key physiological systems vital for explosive muscle growth and inhuman strength. From ferocious vaso-muscular pumps to ramped up neuro-signaling, the gains you will experience on naNO Vapor are unlike any other.

What Makes naNO Vapor Unlike Any Other Pre-Workout Formula?

Biomedically engineered for zero wait-time, the anabolic naNO Vapor storm unleashes a fury that will have you attacking the weights with unstoppable intensity. Armed with state of the art Nano-Diffuse technology, a precise portion of key compounds in the naNO Vapor formula are drastically reduced to a size designed to rapidly increase the rate of absorption. With these microscopic particles easily entering your body, naNO Vapor overwhelms every fiber of your being. You'll observe in utter disbelief as you experience raw, untamed increases in size, mutating your physique to massive proportions right before your very eyes.

Is there any science backing naNO Vapor?

When it comes to supplements, Team MuscleTech demands the highest standard of excellence you do. In order to ensure the naNO Vapor formula was fully armed with only the most scientifically advanced ingredients, countless hours were spent in the lab. During the exhaustive formulation process, Team MuscleTech researchers dissected a total of 2,180 research studies when creating naNO Vapor. No supplement of its kind is backed by the same measure of science.

Who should be taking naNO Vapor?

If you're truly hungry for primal muscle growth and increased workout intensity, the naNO Vapor experience is waiting for you. But make no mistake: naNO Vapor is not for part-time, recreational, or wannabe bodybuilders. Only the most dedicated iron soldiers can handle the aftermath of naNO Vapor. The unbelievable experience triggered by naNO Vapor delivers explosive results that have to be experienced to be believed.

NUTRITION

Serving Size: 1 scoop (25g)
Servings Per Container: 40

Amount Per Serving:
Total Calories: 50
Protein: 0g
Total Carbohydrates: 13g
Sugars: 5g
Fat: 0g
Fibre: 0g
Sodium: 210mg
Niacin: 12mg

naNO Vapor Blend: 20,301mg (Featuring Nano-Diffuse Technology)

Intravol:

- Maltodextrin: 7680mg
- Creatine monohydrate: 2100mg
- Taurine: 1000mg
- Asian ginseng extract (as Panax ginseng) (root): 10mg (Standardized for 25% ginsenosides)
- Creatine anhydrous: 10mg

Vasoprime:

- D-glucose monosaccharide: 5000mg
- L-arginine: 1775mg
- L-aspartic acid: 1000mg
- Dicalcium phosphate dihydrate: 333mg
- Disodium phosphate dehydrate: 333mg
- Dipotassium phosphate: 333mg

Anaphex:

- Glycine: 2500mg
- Beta-alanine: 20mg
- L-leucine: 20mg
- L-isoleucine: 10mg
- L-valine: 10mg

Infernogen:

- Caffeine Anhydrous: 117mg
- Cocoa extract (as Theobroma cacao)(seed):20mg
- White tea extract (as camellia sinensis)(leaf):20mg (Standardized for 50% Polyphenols, 35% Catechins, 15% EGCG)
- Black Tea Leaf Extract (As Camellia Sinensis) (leaf): 10mg (Standardized to 70% Polyphenols, 50% Catechins, 25% EGCG)

Other Ingredients:

Maltodextrin, D-glucose monosaccharide, glycine, creatine monohydrate, L-arginine, flavour enhancer (citric acid), L-aspartic acid, taurine, flavours, antioxidant (trisodium citrate), dicalcium phosphate dihydrate, disodium phosphate dihydrate, dipotassium phosphate, anti-caking agent (calcium silicate), caffeine anhydrous, sweeteners (acesulfame-potassium, sucralose), colours (allura red AC, indigo carmine), L-leucine, Beta-alanine, cocoa extract (theobroma cacao), white tea extract (camellia sinensis), niacin, L-isoleucine, L-valine, asian ginseng extract (panax ginseng), black tea extract (camellia sinensis), creatine anhydrous

ANABOLIC HALO

NUTRASPORT

Flavours:	Arctic Fruit
Size:	800g
Price:	See Nutrasport Website

PURCHASE

WHAT IT DOES

Featuring three Sub-Zero Technologies – Cryogenic Thermomolecular Technology, Lyophilization and Anabolic Crystallographic Technology – Anabolic Halo unleashes the exclusive power of cryo-anabolic molecules.

The first, Cryogenic Thermomolecular Technology, uses mechanically measured blasts of impossibly low-temperature liquid nitrogen, as cold as -320 degrees Fahrenheit, to thermomolecularly enhance a precise portion of one of the most anabolic compounds on the planet.

The second pharmaceutically inspired technology, called Lyophilization, actually changes the physical state of a proprietary dose of an anti-catabolic complex in Anabolic Halo. Lyophilization exploits the micro-molecular process of sublimation which is so advanced, it actually forces molecules within a structure to skip matter states and go directly from a solid to a gas.

The third, cryogenic process, called Anabolic Crystallographic Technology, discharges a 180-minute treatment of liquid nitrogen at -150 degrees Fahrenheit on a critical anabolic compound. The resulting molecular structure is unlike anything ever witnessed in bodybuilding!

Make no mistake, Anabolic Halo is designed to throw muscles into the most hardcore, anabolic state they've ever been in. The ultra-potent blend sets off a sequence of six growth-inducing elements guaranteed to make your muscles balloon to monstrous proportions ... like you've never seen before! And the formula is relentless, continuing to work until a larger, more muscular being stares back at you in the mirror!

It's simple, you won't build any muscle unless you're anabolic, and Anabolic Halo catapults you into a powerful anabolic state that truly has to be experienced to be believed. The mega-dose of muscle-manipulating compounds tackles six critical growth-inducing elements guaranteed to deliver rapid and dramatic muscle growth like no other supplement can!

NUTRITION

Serving Size: 1 scoop (28g)
Servings Per Container: 40

Amount Per Serving:

Total Calories: 80
Protein: 0
Total Carbohydrates: 19g
Sugars: 9g
Fat: 0
Sodium: 120mg
Thiamin: 0.5mg
Riboflavin: 0.6mg
Niacin: 0.3mg
Vitamin B6: 0.85mg
Vitamin B12: 20mcg

Anabolic HALO Blend: 24844mg
(Powered By Patent-Pending, jet pulverizing, hammer milling, lyophilization cryogenic technologies)

Supercritical Growth Factor (featuring Custom ATF-4 Power Plant):

- Dextrose Monohydrate: 9800mg
- Maltodextrin: 9473mg
- Creatine Monohydrate: 2001mg
- L-lysine HCl: 20mg
- L-threonine: 20mg
- L-histidine: 20mg
- L-methionine: 20mg

Pure Anabolic ICE Crystal:

- L-leucine: 2000mg
- Glycine: 80mg

FREE-TEST Cold Burn:

- L-aspartic acid: 300mg
- Vitis vinifera extract (skin): 20mg
(Standardized for 20% proanthocyanadins)
- N-acetyl L-carnitine HCl: 20mg

GH Sub-Zero:

- Wasabia japonica powder (root): 100mg
- L-Glutamine: 50mg
- Red raspberry powder (as Rubus idaeus) (leaf): 20mg
- Beta-alanine: 20mg
- Quercetin dehydrate: 20mg
- Black tea extract (as Camellia sinensis) (leaf): 20mg
(Standardized for 70% polyphenols, 50% catechins, 45% EGCG)
- Black tea extract (as Camellia sinensis) (leaf): 20mg
(Standardized for 50% polyphenols, 35% catechins, 15% EGCG)
- Oolong tea extract (as Camellia sinensis) (leaf): 20mg
(Standardized for 50% polyphenols, 25% catechins, 15% EGCG)
- Coffea Arabica extract (seed): 20mg
- Hops extract (as Humulus lupulus) (strobile): 0mg

Growth Isotherm:

- L-Ornithine HCl: 20mg
- Artichoke Flavonoids (As Cynara Scolymus L.) (aerial parts): 20mg

High Performance ATF-4 Insulin Coolant:

- Fenugreek Extract (As Trigonella Foenum-Graecum) (Seed): 10mg
(Standardized For 5% trigonelline and 40% galactomannan)

Other Ingredients:

Dextrose monohydrate, maltodextrin, creatine monohydrate, L-leucine, flavours, flavour enhancer (citric acid), antioxidant (trisodium citrate), L-aspartic acid, sweeteners (aspartame, acesulfame-potassium), wasabia japonica, anti-foaming agent (dimethyl polysiloxane), L-glutamine, stabilizing agent (gum arabic), L-glycine, L-histidine, L-lysine HCl, L-threonine, L-methionine, vitis vinifera extract, N-acetyl L-carnitine, Red Raspberry powder (rubus idaeus), beta-alanine, quercetin dihydrate, black tea extract (camellia sinensis), white tea extract (camellia sinensis), oolong tea extract (camellia sinensis), coffea arabica extract, L-ornithine HCl, artichoke extract (cynara scolymus L.), colours (indigo carmine, tartrazine), fenugreek extract (trigonella foenum-graecum), hops extract (humulus lupulus), vitamin B6 (as pyridoxine hydrochloride), riboflavin, thiamin, niacin, vitamin B12 (as cyanocobalamin)

NITROTECH Hardcore

NUTRASPORT

Flavours:	Strawberry, Chocolate
Size:	2Kg
Purchase:	See Nutrasport Website

PURCHASE

WHAT IT DOES

Introducing Nitro-Tech Hardcore, the only musclebuilding protein formula in the world clinically proven to help you add up to 8.4 pounds of muscle in as little as 14 days! Backed by research spanning a decade, doctor formulated Nitro-Tech Hardcore is the world's #1 selling protein formula! From former Mr. Olympia, Jay Cutler, to reigning Mr. Olympia, Dexter Jackson, to devoted gym warriors like you, more bodybuilders have used Nitro-Tech Hardcore to build head-turning muscle and steal the spotlight than any other protein formula in the world!

Each serving of Nitro-Tech Hardcore contains a Nitrogen Delivery System. This exclusive system consists of three anabolically infused blends – each loaded with high-quality amino acids that have a proven track record for building muscle. The first is SynthePro, an exclusive, ultra-absorbing amino acid matrix designed to maximize muscle growth. The second is Insulogen, a complex of anabolic insulin drivers designed to support insulin secretion, maximize insulin sensitivity, and prime your muscles for nutrient supersaturation. Nitro-Tech Hardcore's third proprietary blend is Nitroxen, an amplified nitric oxide accelerator formulated to turbocharge amino acid delivery to your expanding muscles for a surge of serious growth.

Nitro-Tech Hardcore also unleashes Nanomolecular Hyperdispersion Technology, an advanced technique which nanoparticulates a precise portion of protein particles to a fraction of the size of regular protein particles. Nanomolecular Hyperdispersion Technology is designed to hyperaccelerate muscle metabolism and protein synthesis to build muscle faster than any other protein can! What's more, Nitro-Tech Hardcore's multiple components are designed to operate synergistically, to make your muscles explode with new size, starting with your very first dose!

NUTRITION

Serving Size: 1 scoop (28g)
Servings Per Container: 63

Amount Per Serving:

Total Calories: 110
Protein: 20g
Total Carbohydrates: 3g
-Sugars: 2g
Fat: 1.5g
-Saturates: 1g
Dietary Fiber: <1g
Sodium: 100mg
Vitamin E (as dl-alpha tocopheryl acetate): 30 mg
Vitamin B6 (as pyridoxine hydrochloride): 10mg
Folacin: 67mcg
Calcium: 100mg
Magnesium (as magnesium oxide): 40mg

SynthePro (Rapid Absorbing Amino Acid Matrix):
2008mg
Creatine monohydrate
L-methionine
L-phenylalanine
L-histidine
L-threonine
L-valine
L-lysine monohydrochloride
L-isoleucine

Insulogen (Nutrient Drivers): 851mg
Cyamopsis tetragonoloba (guar gum)
Inositol
Taurine
Alpha Lipoic Acid
L-leucine
C12 Peptin (Casein hydrolysate) (supplying 6% C12 peptide)

Nitroxen (Amplified Nitric Oxide Accelerators):
398mg
L-glutamine
American ginseng extract (Panax quinquefolius) (root)
N-acetyl cysteine
L-citrulline

Ingredients:

Protein blend (whey protein concentrate [providing di-, tri-, oligo-, and polypeptides], hyper-pure whey protein isolate (ion-exchanged 97% purity), partially hydrolyzed whey), creatine monohydrate, cocoa powder, flavours, stabiliser (cyamopsis tetragonoloba [guar gum]), maltodextrin, L-glutamine, Vitamins & Minerals (dipotassium phosphate, dl-alpha tocopheryl acetate, magnesium oxide, pyridoxine hydrochloride, folacin), Sweeteners (aspartame, acesulfame-potassium), American ginseng root extract (as panax quinquefolius), N-acetyl cysteine, salt, silicon dioxide (flow agent), alpha lipoic acid, L-leucine, L-methionine, L-phenylalanine, L-citrulline, L-lysine monohydrochloride, L-threonine, L-histidine, L-valine, casein protein hydrolysate, L-isoleucine. Contains milk and soy ingredients

CELL TECH

NUTRASPORT

Flavours:	Fruit Punch, Orange
Size:	2.04Kg
Price:	See Nutrasport Website

PURCHASE

WHAT IT DOES

If you are looking to get hold of the world's most powerful creatine formula, look no further. Cell-Tech Hardcore has revolutionized the way you build muscle! Cell-Tech Hardcore goes to work immediately, hypersaturating your muscles with its potent creatine matrix and patented delivery system, making it the ultimate advanced creatine formula for anyone serious about gaining muscle and strength fast.

Cell-Tech Hardcore is scientifically formulated with radical ingredient complexes such as Crea-Edge, Osmodrol, Insulodrive, and Lipoic-Tech to throw you into full-throttle growth. Cell-Tech Hardcore is designed to force extreme muscle creatine saturation, for raw size-inducing muscle power. The muscle cell specific volumizer, Osmodrol, is designed to amplify muscle cell nutrient uptake and hydration, flooding your muscles with powerful muscle constructing tools. Insulodrive, a specific complex designed to maximize insulin secretion for ultimate creatine uptake, powers every serving of Cell-Tech Hardcore.

Working in unison with the dramatic insulin jolt ignited by a 75-gram dose of laboratory tested, HPLC certified dextrose, Cell-Tech Hardcore harnesses the unrivaled musclebuilding power of insulin. With Lipoic-Tech, a muscle saturation optimizer, Cell-Tech Hardcore is charged with alpha lipoic acid (ALA), designed to boost insulin sensitivity, glucose uptake, and creatine uptake to help you pack on massive muscle. Together with ultra-fast absorption, compliments of Nanomolecular Hyperdispersion Technology, these blends make Cell-Tech Hardcore a lethal weapon. With such extreme power behind Cell-Tech Hardcore, muscle gains are unstoppable!

No other creatine formula has been as thoroughly researched and clinically studied as Cell-Tech Hardcore. In fact, the ultra-potent Cell-Tech Hardcore is backed by cutting-edge research spanning over a decade, and more than 44 clinical studies stand behind it's formula and ingredients. Cell-Tech Hardcore is the world's most powerful musclebuilding creatine formula!

NUTRITION

Container Size: 2kg
Serving Size: 2 scoops (100g)
Servings Per Container: 20

Container Size: 3kg
Serving Size: 2 scoops (100g)
Servings Per Container: 30

Amount Per Serving:

Total Calories: 310
Total Carbohydrates: 77g
-of which sugars: 75g
Sodium: 140mg
Vitamin C: 250mg
Calcium: 120mg
Phosphorus: 180mg
Magnesium: 65mg

Crea-Edge (Hardcore Creatine Matrix): 10g
Creatine monohydrate
Creatine anhydrous

Osmodrol (Hyperosmotic Muscle Volumizer):
2100mg
Taurine

Lipoic-Tech (Saturation Optimizer): 228mg
Alpha lipoic Acid

Insulodrive (Accelerated Nutrient Maximizer): 2mg
Isomalt
D-mannose

Ingredients:

Laboratory-grade dextrose, creatine monohydrate, taurine, acidity regulators (citric acid, tricalcium phosphate), vitamins and minerals (dipotassium phosphate, disodium phosphate, magnesium phosphate, ascorbic acid, chromium polynicotinate), anti-caking agent (calcium silicate), flavouring, sodium alpha lipoic acid, stabilisers (modified food starch, gum acacia, xanthan gum, gum arabic), colours (allura red AC, titanium dioxide), creatine anhydrous, isomalt, D-mannose.
