PURCHASE

WHAT IT DOES

HyperShock, now 3x stronger, is an advanced pre-workout formula designed to induce vein swelling pumps, and deliver the energy, focus, and intensity critical to power through your toughest workouts. HyperShock contains a Patented Sustained Release L-Arginine, Citrulline Malate, Micronized L-Arginine, Vanadyl Sulfate, L-2 Aminopentanoic Acid, and free form amino acids for muscle growth and recovery.

If you want to take your workout to the next level, you need to take HyperShock.

- Power through your toughest workouts with tremendous intensity, energy & focus from the 1st set to the last rep, with ElectroShock 7 Hour Energy!
- Experience vein swelling pumps with 8 hours sustained release nitric oxide!
- Free form amino acids and whey hydrolystate with low molecular weight di & tri peptides produce rapid muscle growth and recovery!
- Advanced blend of patented creatines produce explosive power and strength with no bloating!
- GlycoRush endurance promoting carbohydrates deliver instant muscle glycogen to sustain workout intensity!

HyperShock has a powerful creatine matrix for explosive power and strength, including Magnesium Creatine Chelate, Creatine Ethyl Ester, Creatine Pyruvate, and Creatinol-O-Phosphate, and 12g of energizing and endurance promoting long & short chain carbohydrates.

Other Ingredients: Fructose, Maltodextrin, Citric Acid, Natural & Artificial Flavors, Malic Acid, Magnesium Oxide, Potassium Phosphate, Calcium Phosphate, Sodium Phosphate, Sucralose, Acesulfame K

Hyper Shock (New) Directions from MYOGENIX

Mix 1 scoop with 6-8oz of water 15 minutes prior to exercise, on an empty stomach. Always assess tolerance first..

AFTER TACTICAL POST-WORKOUT CATALYST

WHAT IT DOES

After intensive research and field testing, Myogenix has introduced the most advanced strength and recovery formula ever developed. AfterShock Recovery. Designed to target every aspect of muscle growth, strength, speed, recovery, and over-all enhanced performance, AfterShock specifically keeps the needs of elite athletes in mind, who demand an intense nutritional profile. Enhance athletic performance and see immediate results!

Anabolic Window

The Key to Unlimited Muscle Growth

The anabolic window is a 30 minute period of time, immediately post exercise, when your body is primed for muscle growth, if given the proper nutrients. AfterShock contains these vital nutrients, absolutely critical for muscle growth, glycogen replenishment and recovery.

NUTRITION

AfterShock 1.2kg

Serving per container: 15
Serving Size 2 scoops (80g)

34g Anabolic Whey Protein

100% Lactose free, Fast Digesting Proteins With Di & Tri Peptides

30g Mass Building Carbohydrates
Rapid Absorption, Glycogen Replenishing Carbohydrates

8g Amino Stack -- Creatine & Glutamine
High Absorption, Patented Magnesium Creatine Chelate and Magnesium Glycyl Glutamine

7.25g Branched Chain Amino Acids
Leucine, Isoleucine & Valine

1500mg Joint Repair Formula
Glucosamine, Chondroitin & MSM

1500mg Antioxidant Blend
Alpha Lipoic Acid, Vitamin C and B-Vitamins

CREATINE

WHAT IT DOES

Technology of muscle. Creapure Creatine is 99.9% pure and guaranteed to be free of impurities and by-products. Creatine is a natural substance produced by the body and found in various foods. During exercise, Creatine helps regenerate ATP, which is responsible for all muscle contractions. During high intensity exercise, the ATP demand in muscles increases. Supplementing with Creatine allows your Phospho-Creatine stores to replenish faster, allowing muscle contractions to continue to peak levels (These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease).

Directions: As a dietary supplement, take 1-2 servings per day. To maximize strength and performance, consume one serving of Aftershock Recovery immediately after exercising.

Take 1-2 servings of Creapure Creatine on non-workout days. 95% Of Creatine is stored in skeletal muscle, so individuals with more muscle mass may need more creatine to reach a saturation point. Seek the advice of a health care professional before using. Be sure to consume 0.8 oz of water per lb. of body weight.

Ingredients: 99.9% Pure Micronized Creapure Creatine.

NUTRITION

PURCHASE

GLUTAMINE

WHAT IT DOES

Glutamine is the most abundant free amino acid in muscle tissue. It helps support muscle growth and also provides energy for the entire body, including important metabolic functions. It is produced by the body under normal conditions, however, during periods of stress or intense exercise, our demand increases. Supplementing with L-Glutamine after workouts may aid in muscle tissue repair, enhance immune functions and assist in recovery and recuperation.

NUTRITION

Serving size: 1 scoop (5g)
Serving per container: 100
Amount per serving

Ingredients: 100% pure micronized L-Glutamine powder

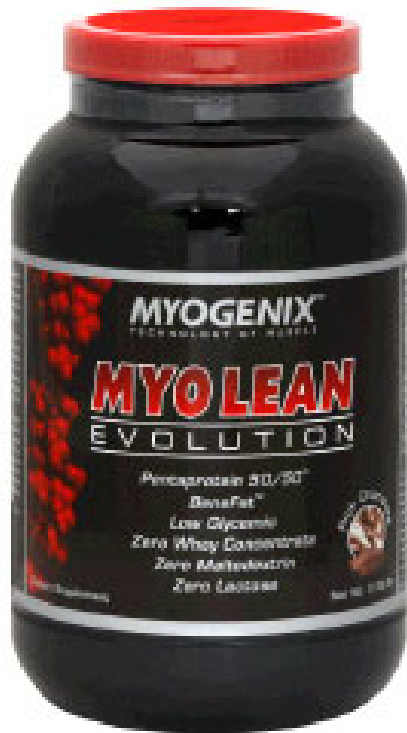

Recommended Use:
As a dietary supplement, take Pharmaceutical grade L-Glutamine with meals, after exercising or before bed.

PURCHASE

WHAT IT DOES

Myo Lean Evolution has set the standard for meal supplement by providing the most technically advanced blend of whey isolates and slow releasing protein, and combining them with the highest quality “healthy” fats, all in a low care, low glycemic formula. We intended on making a “perfect meal” for the elite athlete. We ended up with a product so loaded with high quality raw materials, so nutrient dense, it would benefit not only elite athletes looking to add powerful lean muscle, but anyone looking to improve their health and physique through nutrition.
