

NO-SHOTGUN

NUTRASPORT

Flavours: Cherry, Exotic Fruit, Watermelon, Grape

Size: 588g

Price: See Nutrasport Website

PURCHASE

WHAT IT DOES

NO-SHOTGUN- Contains REDLINE & MELTDOWN'S powerful fat burning and energy technology for mind blowing intensity! GBB and MTB Pump (Magnesium Tanshinoate B) for Nitric Oxide induced skin splitting pumps. 40,000 milligrams of anabolic PROTEIN FRACTIONS in just one serving! No cheap dextrose or waxy maize fillers.

With BCAA's & Fractionated Protein Peptides for maximal muscle protein synthesis and nitrogen retention - to important markers of muscle growth! Fueled by Research proven PeptoPro and BPOV for maximum insulin secretion and insulin receptor site sensitivity. Insulin is the most anabolic of all hormones! No carbs, waxy maize starch or sugars needed. With COP™ (Creatinol-O-Phosphate) to enhance anaerobic glycolysis and CPT (di-Na Creatine PhosphateTetrahydrate) -- two designer creatines proven in VPX labs to be resistant to conversion to creatinine. This eliminates bloating and allows transport of intact COP and CPT into muscle tissue!

Beta-Alanine is a hyper-performance ingredient patented to increase whole body creatine retention to crank out more sets and more muscle-blasting reps for increased lean mass! Satellite Cell Activators for maximal new Muscle Cell Division Hyperplasia! This means larger existing muscle fibers and splitting of these fibers to create totally new muscle.

NUTRITION

Container Size: 588g
Serving Size: 1 scoop (21g)
Servings Per Container: 28

Amount Per Serving:

Total Calories: 81
Protein: 20g
Total Carbohydrates: 0g
Fat: 0g
Cholesterol: 0g
Sodium: 65mg

Protein Hydrolysate Matrix (22% Glutamine Peptides, 21% BCAA Peptides, 41% EAAs): 9660g
Casein Protein Hydrolysate
Whey Protein Hydrolysate
Whey Protein Isolate

Proprietary Branched Chain Ethyl Ester Amino Acid Matrix:

L-Leucine
L-Valine
L-Isoleucine
L-Arginine
L-Valine Ethyl Ester
L-2-Aminopentanoic Acid (L-nor-Valine)
L-Alanyl Glutamine
L-Arginine Ethyl Ester di-HCl
L-Isoleucine Ethyl Ester HCl
L-Leucine Ethyl Ester HCl

Proprietary Muscle Volumizing, NO₂, Insulinotropic Matrix:

10,055mg
Creatine Gluconate
CEX (Creatine Ethyl Ester HCl)
Creatine Taurinate
Creatine Monohydrate
COP Creatinol-O-Phosphate
Di-Na Creatine Phosphate Tetrahydrate
Di-L-Arginine Malate
Citrulline Malate
Gamma-Butyrobetaine Ethyl Ester
MTB Pump (Magnesium Tanshinoate B)
Bi & Picolinato Oxo Vanadium (BPOV)
Gamma-Butyrobetaine

Power, Speed, Strength and Endurance Matrix

Beta-Alanine / Beta-Alanine Ethyl Ester HCl
Guanidiopropionic Acid (GPA)
L-Histidine
KIC (Ketoisocaproic Acid Calcium)
Phosphates
Vitamin B6 (Pyridoxine HCl)
Creatine Magnesium Chelate

RedLine® Energy & Meltdown® Fat Burning Technology: 377mg

L-Tyrosine
Caffeine Anhydrous
Beta Phenylethylamine HCl
Hordenine HCl
Folic Acid
R-Beta-Methylphenylethylamine

Other Ingredients:

Natural and Artificial flavours, Malic Acid, Sucralose, Citric Acid Anhydrous, Monosodium phosphate anhydrous, trisodium phosphate dodecahydrate, Glycine

Please Note: Nutritional facts and ingredients may vary slightly between flavours

BANG

NUTRASPORT

Flavours:	Watermelon, Fruit Punch
Size:	12 Units
Price:	See Nutrasport Website

PURCHASE

WHAT IT DOES

Locked and Loaded, the sub-micron active compounds in BANG go to work FASTER and hit your Muscles HARDER than any drink on the planet. VPX guarantees sub-micron ingredient delivery through its multi-blade high speed shearing process all masterfully engineered in our own state of the art R and D and manufacturing facilities. It's no wonder BANG! is critically acclaimed as the greatest hardcore muscle building sports drink innovation in history.

Only BANG! powers your muscles with cutting edge compounds like COP®: Ultra Pure Creatinol-O-Phosphate and the next generation compound far more powerful than beta-Alanine called, beta-Alanyl-1-Methyl-Histidine to Radically Increase Whole Body Creatine Retention. Feel the BPOV shuttle BCAA's into your muscles via the most anabolic hormone, insulin while GBB and Mg Tashinoate B deliver a Nitric Oxide-induced Mind Blowing Massive Muscle Swell.

NUTRITION

BANG Supplement Facts:

Serving Size 1/2 bottle (8 fl oz)
Servings Per Container 2

Amount Per Serving? Calories 24
Total Carbohydrates 2.5g
Sugars 0g
Total Fat 0g
Saturated Fat 0g
Unsaturated Fat 0g
Protein 3.5g
Potassium (as potassium phosphate Dibasic)
Sodium (as sodium chloride)
BANG Proprietary Blend 5,5842mg
COP Creatinol-O-Phosphate
Glycerine
L-Leucine (BCAA)
L-Isoleucine (BCAA)
L-Valine (BCAA)
Caffeine Anhydrous
Anserine (beta-alanyl-1-methyl-histidine)
L-Theanine?Gamma-Butyrobetaine (GBB)
Magnesium Tanshinoate B
Geranamine
Bis Picollnato Oxo Vanadium (BPOV)
Ilex Paraguariensis (Standard for 1,3-di-n-propyl-7-propargylxanthine)

Bang Other Ingredients: Highly Purified Water, Citric Acid, Natural and Artificial Flavor, Malic Acid, Surcrelean Brand Sucralose (a non-nutritive sweetener) Sodium Benzoate, Potassium Sorbate, Na Erythorbate, Nisplin.

Bang Suggested Use:
Drink eight ounces (one half bottle) of BANG! 20minutes prior to your workout or athletic event. The remaining eight ounces of Bang! can be consumed during your workout or athletic event. Always consume and additional 10 to 12 ounces of water after drinking BANG! Do not consume more than one 16 ounce bottle of BANG

NO-SYNTHESIZE

PURCHASE

WHAT IT DOES

Growth Maximizing POST-WORKOUT Formula

Contains all 8 EEA's (Essential Amino Acids) including BCAA's proven to increase nitrogen retention and protein synthesis -- vital for muscle growth and repair!

Designer Creatines - both di-Na Creatine PhosphateTetrahydrate and COP (Creatinol-O-Phosphate) are literally sucked up by hungry post-workout muscles due to advanced molecular structure.

Beta-Alanine Ethyl Ester HCl is a hyper-performance ingredient patented to increase whole body creatine retention of CPT and COP to stay cock-diesel-pumped all day long!

GBB (Gamma-Butyrobetaine Ethyl Ester) and MTB Pump (Magnesium Tanshinoate B) for Nitric Oxide induced lean muscle accrual and repair.

Infused with research proven PeptoPro and BPOV for maximum insulin secretion and insulin receptor site sensitivity. Insulin is the most anabolic of all hormones! No carbs, waxy maize starch or sugars needed.

Satellite Cell Activators for maximal new Muscle Cell Division Hyperplasia! This means larger existing muscle fibers and splitting of these fibers to create totally new muscle.

This stack contains super potent ingredients that other companies couldn't use because of their lack of scientific sophistication. NO Shotgun and NO Synthesize are the absolute best pre-and-post workout supplements to ever be invented in VPX's state of the art laboratories. Here are just a few revolutionary anabolic-boosting and cell-swelling ingredients that you'll find in the next evolution of pre-and-post workout products – NO Shotgun and NO Synthesize:

- COP™ – Creatinol-O-Phosphate
- Di Sodium Creatine PhosphateTetrahydrate
- BPOV – Bis Picolinato Oxo Vanadium
- Beta-Alanine Ethyl Ester HCl
- PeptoPro®– Casein Protein Hydrolysates
- GBB - Gamma-Butyrobetain

Casein Protein Hydrolysate
Whey Protein Hydrolysate
Whey Protein Isolate

Branched Chain Ethyl Ester Amino Acid Matrix (Naturally Occuring And Added): 12,350mg
L-Leucine
L-Valine
L-Isoleucine
L-2-Aminopentanoic Acid (L-Nor-Valine)
L-Leucine Ethyl Ester
L-Valine Ethyl Ester
L-Lysine
L-Phenylalanine
L-Threonine
L-Histidine
L-Isoleucine Ethyl Ester
L-Methionine

Proprietary Muscle Volumizing, NO2, Insulinotropic: 9352mg
Creatine Taurinate
Creatine Gluconate
CEX (Creatine Ethyl Ester HCL)
Beta-Alanine
Di-L-Arginine Malate
COP (Creatinol-O-Phosphate)
Creatine Magnesium Chelate
Creatine Monohydrate
Citrulline Malate
Gamma-Butyrobetaine Ethyl Ester
MTB Pump (Magnesium Tanshinoate B)
Bis Picolinato Oxo Vanadium (BPOV)
Beta Alanine Ethyl Ester
Di-Na Creatine Phosphate Tetrahydrate
Phosphates
Folate (As Folic Acid) ~ 100%
Gamma-Butyrobetaine

Other Ingredients:

Natural And Artificial Flavors, Malic Acid, Monosodium Phosphate Anhydrous, Trisodium Phosphate Dodecahydrate, Sucralean Brand Sucralose (A Non-Nutratice Sweetner), and Citric Acid Anhydrous

Please Note: Nutritional facts and ingredients may vary slightly between flavours

STEALTH

NUTRASPORT

Flavours:	Chocolate, Vanilla
Size:	2.3Kg
Price:	See Nutrasport Website

PURCHASE

WHAT IT DOES

STEALTH® Muscle Amplification Lean Mass Gainer™ contains a synergistic combination of research proven compounds to shift muscles into maximal anabolic overdrive. Unlike other gainers, STEALTH® is also designed to give you explosive power and strength with compounds proven to increase bench press 1,108% over a placebo.

VPX's STEALTH® is infused with 12 key NO-Shotgun® ingredients university proven to radically increase 4 muscle gene proteins up to 118% and amplify Muscle DNA by 148.65%. Muscle DNA is the genetic code that tells the muscle to split and form new muscle fibers known as hyperplasia. STEALTH®-induced hyperplasia allows you to add muscle mass geometrically by forming new muscle. STEALTH® contains 7 potent proteins. This mass-building mixture feeds your muscles with the building blocks to make existing muscles larger and to form new muscle tissue. Whey and Casein Protein Hydrolysates are the most anabolic proteins known to man and enter the blood rapidly causing a massive spike in insulin -- the most anabolic of all hormones including growth hormone and testosterone. These fractionated Whey and Casein Di- and Tri-Peptides have an insulinotropic effect that forces amino acid transport into muscles to induce rapid growth. Furthermore, this unique combination of fast and slow proteins provides an instant anabolic kick followed by a slow trickle of amino acids for anti-catabolic muscle breakdown prevention. Coupled with these superlative proteins are cutting edge Creatine Nitrate, COP® (Creatinol-O-Phosphate) and Creatine Leucinate to drive muscle strength and muscle growth through the stratosphere. Research shows that these compounds can activate satellite cells, enhance myofibrillar protein synthesis, and top off phosphagen energy concentrations in muscle. Specialized unsaturated fats are utilized for superior muscle cell membrane integrity along with high molecular weight polymers for glycogen super-compensation. VPX's STEALTH® is the superior muscle mass builder that is perfect to lay down slabs of mind-blowing mass. In the old-school days the weight gainer with the most calories won the mass war but made people look and feel like trash. VPX STEALTH® has changed the rules of rapid muscular weight gain by adding the world's most powerful nutrient partitioning agents. Agents so powerful that they were proven to alter muscle gene proteins with just one ounce of NO-Shotgun® per day! If just one ounce of NO-Shotgun® a day increased lean muscle mass by 5.5 pounds, imagine what 10 ounces of STEALTH® can do!

NUTRITION

Container Size: 2250g
Serving Size: 3 scoop (150g)
Servings Per Container: 15

Amount Per Serving:

Total Calories: 545
Protein: 47g
Total Carbohydrates: 78g
Dietary Fibre: 4g
Sugars: 3g
Fat: 5g
-Saturated Fat: 1.5
Sodium: 290mg
Potassium: 760mg

Myoblast Glycogen Super-Compensation Matrix:
Glucose Polymers
Isomaltulose
Waxy Maize (High Molecular Weight & Chain Polymers)

7 Anabolic and Anti-Catabolic Steady State Proteins: 47g

Myogenic Lean Mass & Power Amplification Matrix (6005mg):
Insulinotropic Transport Tri-Matrix
Creatine Leucinate
Creatine Gluconate
Vanadyl Sulfate

Dense Caloric Fatty Acid Matrix (4g):
Almond Oil
Safflower Oil
Sunflower Oil
MCT Oil
CLA

Other Ingredients:

Cocoa powder (processed with alkali), natural and artificial flavours, lecithin, sodium chloride, potassium phosphate, trisodium phosphate, Sucralean brand sucralose, malic acid, acesulfame potassium.

Please Note: Nutritional facts and ingredients may vary slightly between flavours

SYNGEX

NUTRASPORT

Flavours:	Chocolate, Vanilla

PURCHASE

WHAT IT DOES

VPX is proud to bring you a cutting edge NEW Whey Protein Isolate called, SpiroFuse Reverse Osmosis™ or SFRO™. This invention is Whey Protein Isolate by Reverse Osmosis SpiroFuse Filtration™ or SFRO™. Roughly 10 years ago VPX was the first company ever to release a ceramic filtered Whey Protein Isolate supplement called, cross flow microfiltration. This created quite a stir in the supplement industry because until this time, only whey protein concentrate (WPC) or low grade Ion Exchange WPI was available. As you can imagine there have been significant improvements in whey protein technology over the past 10 years.

As a result of these superior scientific advancements, VPX is utilizing super high tech new membrane systems that produce isolated proteins that are 99% pure and are ultra rich in potent low molecular weight micro-fractions (LMWF). VPX is also using a new Whey Protein Concentrate that is designed to keep the fat globule portion of the protein intact which preserves the integrity of the naturally occurring IGF-1 and IGF-2. Consequently, SYNGEX? was born - a synergistic blend of the world's most cutting edge Whey Protein Isolate and Concentrate! The SYNGEX - flavoring system is also NEW and developed by VPX flavor experts. These new potent proteins and flavor technologies are only available inside of SYNGEX? Protein and other VPX protein products. VPX is creating the future of muscle science, bodybuilding and performance enhancement for your success.

NUTRITION

Container Size: 2250g
Serving Size: 1 scoop (30g)
Servings Per Container: 75

POWER PUMP 7

NUTRASPORT

Flavours:	Fruit Punch, Grape
Size:	300ml x 24 Units
Price:	See Nutrasport Website

PURCHASE

WHAT IT DOES

Power Pump 7™ w/Beta Alanine

NEW AND IMPROVED VERSION OF MUSCLE NITROUS PUMP™

Induce radical growth by fueling intracellular mechanisms with POWER PUMP™ 7! The compounds found in POWER PUMP 7 will produce freaky pumps, enhance stamina, reduce lactic acid, jack up strength, and increase nutrient uptake into muscle cells. Within days POWER PUMP 7 will have your muscles looking rounder, fuller, and swollen to the max. Powered by BAEX™ (Beta Alanine Ethyl Ester HCl) and Arginase Inhibitors to prolong the biological activity of Arginine Ethyl Ester in the body. This is hugely important because Nitric Oxide (NO₂) is a gas that is metabolized within seconds in the body. BAEX™ is a far superior pharmaceutical delivery compound than A-AKG (Arginine -Ketoglutarate). A-AKG is a simple Arginine salt that has proven to be ineffective at increasing muscle mass.

Power Pump 7 with Beta-Alanine was Engineered To:

- Boost Nitric Oxide Levels
- Improve Strength
- Enhance Stamina
- Reduce Muscular Pain and Fatigue
- Fuel ATP Production
- Provide Radical Pumps
- Promote Lean Growth and Vascularity
- Increase Muscle Carnosine

Recommended Use:

Shake well prior to use. For best results use one to two servings of BAEX™ POWER PUMP 7™ with Beta Alanine everyday including non-training days: 1) Prior to and/or during training, BAEX™ POWER PUMP 7™ with Beta Alanine can be used by itself or 2) consumed together with a ZERO IMPACT® PROTEIN shake. BAEX™ POWER PUMP 7™ with Beta Alanine can be synergistically stacked with CEX®, ZERO IMPACT® PROTEIN is recommended to fulfill increased protein requirements. Keep out of reach of children. For individuals 17 years of age or older.

NUTRITION

Serving Size: 1 Bottle (240ml)
Servings Per Box: 4 Bottles

Amount Per Serving:

Total Calories: 60
Protein: 0
Total Carbohydrates: 11g
Fat: 0
Cholesterol: 0g

Proprietary Blend (13,428mg):
Glycerine
Beta Alanine / BAEX (Beta Alanine Ethyl Ester HCL)
Di-Arginine Malate
Citrulline Malate
Magnesium Tashinoate B
1,3,7-Trimethylxanthine
L-Norvaline
Beta-Phenylethylamine HCL

Other Ingredients:

Purified Water, Citric Acid, Natural And Artificial Flavors, Potassium Sorbate, And Sucralose

Please Note: Nutritional facts and ingredients may vary slightly between flavours

REDLINE POWER RUSH

NUTRASPORT

Flavours: Grape, Fruit Punch, Peach & Mango.

Size: 300ml x 12 Units

Price: See Nutrasport Website

PURCHASE

WHAT IT DOES

REDLINE Power Rush®

THE MOST POWERFUL NAME IN ENERGY!

VPX has done it again with the introduction of the next generation of Redline® – REDLINE Power Rush®. Straight from the Redline® laboratories, VPX has taken the profound energy producing compounds of the Original Redline® and shrunk them into a small convenient bottle. So goes the saying, “big things come in small packages,” with seven, that’s right seven hours of sustained energy that will leave you “amped” to the max in minutes, ready to tear apart the weights and wear out the treadmill like a tiger released from its cage! With no crash, REDLINE Power Rush® doesn’t stop there, the intense energy will last beyond your workout to keep you focused and energized throughout the day.

- 7 Hours of Sustained Energy
- No crash
- Zero Sugar
- Zero Carbs

Recommended Use:

Shake well prior to use. Always begin with one-quarter bottle (0.63 fl. oz. [about three capfuls]) of REDLINE® POWER RUSH daily to assess tolerance. Never exceed more than one half (1/2) bottle per 7 hours or one full bottle daily. One half (1/2) bottle is one full serving.

*Individual results may vary.

*Contains no fruit juice.

*Phenylketonurics: Contains Phenylalanine.
